Section 1 – Overview & Underwriting Criteria

This Product Eligibility Policy outlines the parameter requirements for residential mortgage loans submitted to Orion Lending. This document is an integral part of the loan underwriting review process and should be reviewed in conjunction with all potential findings.

All loans will be examined and evaluated to determine whether the proposed loans generally conform to these guideline parameters. The qualifying specifications and procedures are meant to serve as a principal foundation to qualify, and each borrower will be reviewed in its entirety on an individual basis.

COIN Business Purpose Investor Cash Flow (DSCR) loans that do not conform to the provisions of this Product Eligibility Policy will be comprehensively reviewed on a case-by-case basis. All applicable mitigating and compensating factors to a policy exception must be fully documented prior to considerations/granting of said exception.

Section 2 – Underwriting Criteria

Orion Lending permits utilization of the Debt Service Coverage Ratio (DSCR) Program with investment property transactions. Orion Lending recognizes the relationship between cash flow and current debt obligations and utilizes property income to qualify the transaction. Orion Lending approaches DSCR by using the gross income provided by the subject property divided by the total debt service. Orion Lending considers current debt obligations to include total debt service (i.e., PITIA or ITIA for Interest Only loans).

Age of Documents:

The following documents may not be more than 120 days old at closing (the date the Note is signed)

- Credit Report
- Income verification
- pay stubs
- Mortgage /rental verification
- Asset documents / bank statement
- Title Commitment

Appraisal Age Requirements

- Residential Appraisals: The appraisal must be dated within 365 days of the Note date. Recertification of value required if the report exceeds 120 days as of Note date

Loan Exceptions

- Exceptions will be reviewed per file on a case-by-case basis. Upon approval, exceptions may incur an additional LLPA and/or a price cap to be determined at time of exception approval

Section 3 – Product Eligibility

3.1 Eligibility	<p>Financing of the investment property must be solely for commercial / business purposes and is required to sign a Certification of Business Purpose/Non-Owner Occupancy</p> <p>All loans must be manually underwritten. Schedule of real estate for U.S. properties only must be completed on the loan application, including properties held in LLCs</p>

<p>6.4 Purchase</p>	<ul style="list-style-type: none"> • Proceeds from the transaction are used to finance the acquisition of the subject property • LTV/CLTV is based upon the lesser of the sales price or appraised value • Assignment of contract or finder’s fees reflected on the purchase contract are eligible, subject to interested party contribution limits • Assignment of contract or finding’s fees reflected on the purchase contract are not eligible to be included in the sales contract price or associated with the LTV/CLTV calculations • Ensure the transaction is compliant with the Higher Priced Mortgage Loan appraisal rule. See Section 6.12 (Flip Transactions) for details • The loan file must include a fully executed agreement (purchase contract) of sale and counteroffer (if applicable) reflecting the following: <ul style="list-style-type: none"> ◦ The purchase contract cannot be expired ◦ Borrower as the purchaser of the property ◦ Seller as the vested owner on title ◦ Correct sales price ◦ Amount of down payment ◦ Closing dates ◦ Concessions and seller contributions • Buyer’s Real Estate Agent Commission - In response to the NAR Settlement, the following apply: <ul style="list-style-type: none"> ◦ Commission paid by the property buyer: Considered a closing cost <ul style="list-style-type: none"> ▪ Source of funds must be documented in assets ▪ If borrowed or financed, the monthly payment must be included in the debt-to-income ratio ◦ Commission paid by the property seller: <ul style="list-style-type: none"> ▪ Not considered an interested party contribution if seller agrees to pay according to the negotiated terms of the purchase contract

6.5 Rate/Term Refinance

Proceeds from the transaction are used to:

- Pay off an existing first mortgage loan and any subordinate loan used to acquire the property
- Pay off any subordinate loan not used in the acquisition of the subject property, provided one of the following apply:
 - Closed-end loan, at least 12 months of seasoning has occurred
 - HELOC, at least 12 months of seasoning has occurred, and total draws over the past 12 months are less than \$2,000. (For business purpose transactions, any draw over the life of the loan may not have been used for personal use. Business purpose transactions will require a draw history schedule, along with an attestation from the borrower, in the credit file, that none of the advances were used for personal/consumer use)
- Buy out a co-owner pursuant to an agreement
- Pay off an installment land contract executed more than 12 months from the loan application date

Other Considerations:

- Cash back in an amount not to exceed the lesser of 2% of the new loan amount or \$5,000 can be included in the transaction
- If the subject property was acquired greater than six (6) months, as measured from the property acquisition date to the new Note date, the appraised value will be used to determine LTV/CLTV.
- If the property was acquired less than or equal to six (6) months, as measured from the property acquisition date to the new Note date, the lesser of the current appraisal value or previous purchase price plus documented improvements (if any) will be used to determine LTV/CLTV. The purchase settlement statement and any invoices for materials/labor will be required
- Refinance of a previous loan that provided cash out, as measured from the previous note date to the new Note date, and is seasoned less than 12 months, will be considered a cash out refinance
- A payoff statement that reflects late fees, deferred balance, or delinquent interest are subject to housing history and/or credit event criteria. Transaction is to be considered cashout
- The transaction must be treated as cash-out when the subject property is encumbered by one of the following:
 - Blanket/Cross-Collateralized loan, or
 - Loan that allows for Paid in Kind (PIK) interest
- When the subject property is refinanced out of a cross collateral/blanket mortgage and into a single asset mortgage, the following are required:
 - Copy of the Note for the cross collateral/blanket mortgage to verify release terms.
 - Copy of the Deed of Trust or Mortgage evidencing the encumbered properties.
 - Copy of the payoff statement for the subject property to verify payoff terms.
 - Transaction must be treated as cash-out when the borrower receives cashout proceeds.

6.6 Cash-Out Refinance

A refinance that does not meet the definition of a rate/term transaction is considered cash-out

- A mortgage secured by a property currently owned free and clear is considered cash-out
- The payoff of delinquent real estate taxes (60 days or more past due) is considered cash-out
- Cash-out eligible to satisfy the reserve requirements
- **Cash-Out Seasoning is defined as the length of time the subject property has been owned by the borrower (on title), as measured by the property acquisition date (Note date) to the subject transaction Note date**
 - Minimum borrower seasoning requirement of six (6) months is required to use the current appraised value for LTV/CLTV Less than six (6) months seasoning is allowed subject to the following:
 - LTV/CLTV is limited to the lower of the property’s purchase price plus documented improvements or current appraised value.
 - See [Section 6.7 Delayed Financing](#) for additional restrictions when subject property was purchased in cash.
 - Current appraised value may be used, with one of the following documented circumstances:
 - Borrower acquired the subject property through an inheritance, or
 - Subject property was legally awarded the property through divorce, separation, or dissolution of a domestic partnership
- Proceeds from the loan transaction cannot be used for consumer purpose, i.e., payoff personal debt, personal tax lien(s), personal judgments, or personal collection
 - HELOC: When paying off a HELOC, provide draw history schedule, along with an attestation from the borrower, in the credit file, that none of the advances were used for personal/consumer use)
- When the subject property is refinanced out of a cross collateral/blanket mortgage and into a single asset mortgage, the following are required:
 - Copy of the Note for the cross collateral/blanket mortgage to verify release terms.
 - Copy of the Deed of Trust or Mortgage evidencing the encumbered properties.
 - Copy of the payoff statement for the subject property to verify payoff terms.
 - Transaction must be treated as cash-out when the borrower receives cashout proceeds.
- **Loans not eligible for cash-out:**
 - Properties listed for sale in the past six (6) months, unless a minimum three (3) year prepay penalty
 - Prepayment Penalty – See [section 3.7](#)
 - There has been a prior cash-out within the past six (6) months
 - Payoff of a Land Contract/Contract for Deed
 - When proceeds from the loan transaction are used for consumer purpose, i.e., payoff personal debt, personal tax lien(s), personal judgments, personal collection, or lines of credit secured by the subject property

6.7 Delayed Financing Refinance	<ul style="list-style-type: none"> • Delayed purchase financing is eligible when a property was purchased by a borrower for cash less than 6 months from the subject transaction Note date. <ul style="list-style-type: none"> ○ The original purchase transaction was an arms-length transaction ○ The source of funds for the purchase transaction are documented (such as bank statements, personal loan documents, or a HELOC on another property) <ul style="list-style-type: none"> ▪ If the source of funds are gift from family and documented according the FNMA guidelines, transaction is eligible for delayed financing ○ The maximum LTV/CLTV ratio for the transaction is based upon the lower of the current appraised value or the property’s purchase price plus documented improvements ○ The preliminary title search or report must confirm that there are no existing liens on the subject property ○ The new loan amount can be no more than the actual documented amount of the borrower’s initial investment subject to the maximum LTV/CLTV for rate/term transactions <ul style="list-style-type: none"> ▪ Maximum cash out restrictions apply. See section 3.4 ○ The transaction is considered rate/term refinance for pricing and eligibility
6.8 Subordinate Financing	<ul style="list-style-type: none"> • Seller carried subordinate financing is ineligible • Existing subordination is permitted on refinances • All subordinate loans must be considered when calculating the Borrower’s DSCR • For closed-end fixed rate, fully amortizing simultaneous loans, the qualifying payment is the monthly payment • If a HELOC is present the CLTV/HCLTV must be calculated by dividing the sum of the original loan amount of the first mortgage, the full amount of the HELOC credit line, and the unpaid principal balance of all other subordinate financing by the lower of the property’s sales price or appraised value. • If the subordinate financing is a HELOC secured by the subject property, monthly payments equal to the minimum payment required under the HELOC terms considering fully drawn line amount on or before closing of the subject transaction • A HELOC with zero balance does not require a minimum payment be applied
6.9 Continuity of Obligation	<ul style="list-style-type: none"> • All borrowers on the refinance transaction must be on title at time of application <ul style="list-style-type: none"> ○ When title is held in the name of an entity, the borrower must be majority owner of the entity to meet continuity of obligation
6.10 Builder Bailout	<ul style="list-style-type: none"> • Builder bailouts occur when a builder is unable to sell completed properties at anticipated volumes or prices, resulting in insufficient revenue to satisfy existing loan obligations. These schemes may occur in both purchase and refinance transactions. <ul style="list-style-type: none"> ○ Purchase Transactions: The builder pays large financial incentives to the buyer and facilitates an inflated loan amount by increasing the sales price, concealing the incentive, and using a fraudulently inflated appraisal. ○ Refinance Transactions: The builder, acting as the borrower, structures the loan to appear as a standard refinance, but the true purpose of the transaction is to relieve the builder’s financial distress.

6.11 Properties Listed for Sale	<p>For cash out and rate term refinances:</p> <ul style="list-style-type: none"> • Value will be based on the lesser of lowest list price in prior 12 months or appraised value <p>For cash out refinances:</p> <ul style="list-style-type: none"> • A listing expiration of less than six (6) months is permitted with a 3-year prepayment penalty. If a property is listed for sale, the listing must be cancelled prior to the note date
6.12 Flip Transactions	<p>Property Flipping defined as:</p> <ul style="list-style-type: none"> • The price in the borrower’s purchase agreement exceeds the property Seller’s acquisition price by more than 10% if the property Seller acquired the property 90 or fewer days prior to the date of the borrower’s purchase agreement • The price in the borrower’s purchase agreement exceeds the property Seller’s acquisition price by more than 20% if the property Seller acquired the property 91-180 days prior to the date of the borrower’s purchase agreement • Property Flipping additional requirements: <ul style="list-style-type: none"> ○ A second appraisal must be obtained ○ If the loan is subject to Regulation Z, a copy of the second appraisal must be provided to the borrower in compliance with the federal HPML requirements ○ The second appraisal must be dated prior to the loan consummation/note date ○ The property Seller on the purchase contract must be the owner of record ○ Increases in value should be documented with commentary from the appraiser and recent comparable sales ○ Sufficient documentation to validate actual cost to construct or renovate (e.g., purchase contracts, plans and specifications, receipts, invoices, lien waivers, etc.) must be provided, if applicable
6.13 1031 Exchange	<ul style="list-style-type: none"> • Funds held by a 1031 administrator/agent are permitted for down payment and closing costs • Allowed on investment purchases only • Reverse 1031 exchanges not allowed • Must be in compliance with Internal Revenue Code Section 1031 • Excess proceeds cannot be used to satisfy reserve requirements unless liquidated • Documented by accommodator instructions, fully executed exchange agreement at closing, and settlement statement. • Both the sold property and subject property must be similar and qualify as “like-kind” • NOTE: 2-4-unit properties where one of the units is occupied by the customer are not considered investment properties and therefore are not eligible

Housing History**

- Housing history is required for the subject property if a refinance transaction. Any mortgage tradeline reported on the credit report for any property owned by the borrower needs to be included in the housing history eligibility
 - 0 x 30 x 12
 - For any non-subject property, non-primary mortgage not reporting to credit, additional housing history is not required
- Housing history for the borrower’s primary residence in a foreign country is not required to be documented.
- If the borrower has U.S. credit, credit events documented on the credit report for properties that are not the subject property must be included in credit event eligibility.
- For all real estate owned, housing history and credit events documented outside of the credit report must be reviewed for program eligibility.
- All borrowers must be current on mortgage or rent at loan application
 - An updated mortgage history, defined as paid current as of 45 days of the loan application date, is only needed for the primary residence and subject property
 - Current means the borrower has made all mortgage payments up to and including the month prior to the note date. If the credit report does not reflect the current payment history, one of the following additional documents is required:
 - A loan payment history from the servicer or third-party verification service,
 - A payoff statement (for mortgages being refinanced),
 - The latest mortgage account statement from the borrower, or
 - A verification of mortgage
- For refinance transactions of the subject property, when the existing financing is a Paid In Kind (PIK) loan, a copy of the note must be provided in the credit file to determine required payments. Notes allowing interest to accumulate during the term of the loan are eligible, however, all refinance transactions are treated as cashout
- Properties owned free and clear
 - Provide verification property taxes and insurance are paid current
- If the subject property is not reported on the credit report, see [section 7.6](#)

<p>7.5 Mortgage(s) Not Reported on Credit</p>	<p>Mortgages not appearing on the credit report other than the primary residence or subject property, can be excluded from determining housing history eligibility</p> <p>If applicable, 12 months mortgage payment history is to be documented as follows:</p> <ul style="list-style-type: none"> • Mortgage statement or Note for the review period to verify monthly payment amount, and • Proof of payments through one of the following: <ul style="list-style-type: none"> ○ 12-months cancelled checks, ACH payment, bank transfer/wire, or electronic payment method from the borrower <ul style="list-style-type: none"> ▪ Payments made in cash are not eligible, or ○ 12-months mortgage statements for the review period, or ○ 12-months loan payment history from the creditor/servicer <ul style="list-style-type: none"> ▪ Proof of borrower’s payment for the most recent 6-months is required, or ○ 12-months Verification of Mortgage form (VOM) completed by the creditor/servicer <ul style="list-style-type: none"> ▪ Proof of borrower’s payment for the most recent 6-months is required • If subject transaction is a refinance, mortgage payoff statement is required from the creditor: <ul style="list-style-type: none"> ○ A payoff statement that reflects late fees, deferred balance, or delinquent interest are subject to housing history and/or credit event criteria.  - FNMA Form 1007 or 1025 reflecting long term market rents, and executed lease agreement
 - If the lease agreement is not provided, the max LTV is the lesser of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan Balance Matrix
 - If the lease has been converted to month-to-month, then provide the most recent two (2) months proof of receipt to evidence continuance of lease.
 - If unable to provide evidence of receipt, the unit will be treated as vacant and subject to the following:
 - Lessor of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan Balance Matrix
 - Monthly Gross Rents are determined by using the actual lease amount or estimated market rent from 1007/1025. Monthly gross rent is to be evaluated for each unit individually
 - If using the lower of the actual lease amount or estimated market rent, nothing further is required
 - If using a higher actual lease amount, evidence of 2-months of receipt is required, and the lease amount must be within 120% of the estimated market rent from the 1007/1025. If the actual rent exceeds the estimated market rent by more than 120%, the rents are capped at 120%
 - If using a higher estimated market rent from 1007/1025, it must be within 120% of the lease amount. If the estimated market rent exceeds the lease amount by more than 120%, the estimated market rent is capped at 120%
 - A vacant or unleased property is allowed subject to the following:
 - Lessor of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan Balance Matrix
 - Unit subject to rent control or housing subsidy must utilize current contractual rent to calculate DSCR

9.5 Lease Requirements – Short Term/ Variable Rental

Short-Term Rentals are properties which are leased on a nightly, weekly, monthly, or seasonal basis

- LTV/CLTV limits:
 - **Purchase and Refinance Transaction:**
 - LTV is the lesser of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan balance matrix (excluded Condo Hotel projects)
 - See [section 4.2](#) for Condo Hotel LTV/CLTV limits
- Property Guard report **required** for all short-term rentals. The report must confirm the property has all permits necessary to operate as STR and city, county, state municipalities allow short term rentals

DSCR Calculation:

- Monthly gross rents based upon a 12-month average, to account for seasonality required
- Gross rents reduced by 20% to reflect extraordinary costs (i.e., advertising, furnishings, cleaning) associated with operating short-term rental property compared to non-short-term property. (condotel included)
 - If the rental documentation referenced below includes expenses, actual expenses should be compared to the 20% expense factor. If actual expenses are **less than** 20%, a minimum 20% expense factor is required to be utilized.
 - $(\text{Gross Rents} * .80) \text{ divided by PITIA (ITIA)} = \text{DSCR} - (\text{Ex. } \$2500 * .80) / \$2000 = 1.00 \text{ DSCR}$
 - If actual expense **exceeds** 20%, the actual expense factor should be used
- When short-term rental income is documented using multiple sources, the lowest source of monthly income is to be utilized for calculating DSCR.
- Any of the following methods may be used to determine gross monthly rental income:
 - short-term rental analysis provided by an AMC is allowed, subject to the following:
 - Provide the source of the data used to complete the STR analysis
 - Include comparable STR properties, focusing on room count, gross living area (GLA), location, and market appeal
 - Include daily rental rate and occupancy percentage
 - Factor seasonality and vacancy into the analysis
 - Must be completed by a licensed appraiser
 - The most recent 12-month rental history statement from the 3rd party rental/management service
 - The statement must identify the subject property/unit, rents collected for the previous 12 months, and all vendor management fees. The rental income will exclude all vendor or management fees
 - The most recent 12-month bank statements from the borrower evidencing short-term rental deposits. Borrower must provide rental records for the subject property to support monthly deposits
 - [AIRDNA Rentalizer](#) and Overview reports must meet the following requirements:
 - Rentalizer (Property Earning Potential)
 - Only allowed for purchase transaction
 - Gross Rents equal the revenue projection from the Property Earning Potential Report
 - a. The gross rents are subject to the application of the 20% extraordinary expense factor
 - b. Revenue projection equals the average daily rate times the occupancy rate
 - Forecast period must cover 12 months and dated within 90 days of the Note Date
 - Must have three (3) comparison properties all within the same zip code, as evidenced by a boundary map
 - Must be similar in size, room count, amenities, availability, and occupancy
 - Overview Report
 - Market score or sub-market score grade by zip code
 - Market score or sub-market score must be 60 or greater as reflected on the Property Earning Potential Report
 - When both a Market and Sub-Market score are present, use the lower of the two
 - Both the Market and Sub-Market score must be at the zip code level
 - Market Research report no longer reflects zip code results in the Market/Sub-Market analysis. AirDNA broke down zip codes into sub-markets that vary based on city, town, or neighborhood boundaries. To document the accurate Market/Sub-Market score, it is necessary to capture a screenshot of the Market Research report that includes the zip code search. This will verify the zip code used for the search matches the subject property

Section 12 – Miscellaneous Guideline Requirements	
12.1 Recasting/Re-amortizing	<ul style="list-style-type: none"> • Recasting or re-amortized transactions are not eligible
12.2 Assumability	<ul style="list-style-type: none"> • Fixed Rate loans are not assumable • ARM loans with assumability language are acceptable if the assumption is at the lender’s discretion. The Note and Closing Disclosure must match
12.2 Rental Loss Insurance	<ul style="list-style-type: none"> • Not required
12.3 Temporary Buydown	<ul style="list-style-type: none"> • Temporary buydown mortgage loans are not eligible

12.4 Solar Panel Requirements

- The ownership and debt financing structures commonly found with solar panels are key to determining whether the panels are third-party owned, personal property of the homeowner, or a fixture to the real estate. Common ownership or financing structures include:
 - borrower-owned panels,
 - leasing agreements,
 - separately financed solar panels (where the panels serve as collateral for debt distinct from any existing mortgage); or
 - power purchase agreements
- If the borrower is, or will be, the owner of the solar panels (meaning the panels were a cash purchase, were included in the home purchase price, were otherwise financed and repaid in full, or are secured by the existing first mortgage), our standard requirements apply (for example, appraisal, insurance, and title)
- **Properties with solar panels and other energy efficient items financed with a PACE loan are not eligible if the PACE loan is not paid in full prior to or at closing**
- If insufficient documentation is available and the ownership status of the panels is unclear, no value for the panels may be attributed to the property value on the appraisal unless the lender obtains a UCC “personal property” search that confirms the solar panels are not claimed as collateral by any non-mortgage lender
- A Uniform Commercial Code (UCC) financing statement that covers personal property and is not intended as a “fixture filing” must be filed in the office identified in the relevant state’s adopted version of the UCC
- The underwriter is responsible for ensuring the appraiser has accurate information about the ownership structure of the solar panels and that the appraisal appropriately addresses any impact to the property’s value. Separately financed solar panels must not contribute to the value of the property unless the related documents indicate the panels cannot be repossessed in the event of default on the associated financing. Any contributory value for owned or financed solar panels must be noted in the Improvements Section of the Appraisal Report
 - Solar panels that are leased from or owned by a third party under a power purchase agreement or other similar financing arrangement must be considered personal property and not be included in the appraised value of the property

12.5 Solar Panel Requirements (continued)

The following table summarizes some of the specific underwriting criteria that must be applied depending on the details of any non-mortgage financing for the solar panels

If the solar panels are...	Then the lender must...
<p>If the solar panels are collateral for the separate debt used to purchase the panels, but they are a fixture to the real estate because a UCC fixture filing¹ has been filed for the panels in the real estate records</p>	<ul style="list-style-type: none"> Obtain and review the credit report, title report, appraisal, and/or UCC fixture filing*, related promissory note and related security agreement that reflect the terms of the secured loan; Include the debt obligation in the DSCR ratio calculation; Provided that the panels cannot be repossessed for default on the financing terms, instruct the appraiser to consider the solar panels in the value of the property (based on standard appraisal requirements); and Include the solar panels in other debt secured by the real estate in the CLTV ratio calculation because a UCC fixture filing* is of record in the land records <p>Note: If a UCC fixture filing* is in the land records as a priority senior to the mortgage loan, it must be subordinated</p>
<p>If the solar panels are reported to be collateral for separate (non-mortgage) debt used to purchase the panels, but do not appear on the title report</p>	<ul style="list-style-type: none"> Obtain and review documentation sufficient to confirm the terms of the secured loan (such as copies of the credit report, title report, any UCC financing statement, related promissory note or related security agreement); Include the debt obligation in the DSCR ratio calculation; Instruct the appraiser not to provide contributory value of the solar panels towards the appraised value because the panels are collateral for another debt; Not include the panels in the LTV ratio calculation; and Not include the debt in the other debt secured by the real estate in the CLTV ratio calculation since the security agreement or any UCC financing statement treat the panels as personal property not affixed to the home.

¹A fixture filing is a UCC-1 financing statement authorized and made in accordance with the UCC adopted in the state in which the related real property is located. It covers property that is, or will be, affixed to improvements to such real property. It contains both a description of the collateral that is, or is to be, affixed to that such property, and a description of such real property. It is filed in the same office that mortgages are recorded under the law of the state in which the real property is located. Filing in the land records provides notice to third parties, including title insurance companies, of the existence and perfection of a security interest in the fixture. If properly filed, the security interest in the described fixture has priority over the lien of a subsequently recorded mortgage

If the solar panels are leased from or owned by a third party under a power purchase agreement or other similar lease arrangement, the following requirements apply (whether to the original agreement or as subsequently amended)

12.6 Solar Panels – Leased or Covered by a Power Purchase Agreement	<ul style="list-style-type: none"> • The lender must obtain and review copies of the lease or power purchase agreement • The monthly lease payment must be included in the DSCR ratio calculation unless the lease is structured to: <ul style="list-style-type: none"> ○ Provide delivery of a specific amount of energy at a fixed payment during a given period, and ○ Have a production guarantee that compensates the borrower on a prorated basis in the event the solar panels fail to meet the energy output required for in the lease for that period • Payments under power purchase agreements where the payment is calculated solely based on the energy produced may be excluded from the DSCR ratio • The value of the solar panels cannot be included in the appraised value of the property • The value of the solar panels must not be included in the LTV ratio calculation, even if a precautionary UCC filing is recorded because the documented lease or power purchase agreement status takes priority. <ul style="list-style-type: none"> ○ A “precautionary” UCC filing is one that lessors often file to put third parties on notice of their claimed ownership interest in the property described in it. ○ When the only property described in the UCC filing as collateral is the solar equipment covered by the lease or power purchase agreement, and not the home or underlying land, such a precautionary UCC filing is acceptable (and a minor impediment to title), as long as the loan is underwritten in accordance with this topic. • The value of the solar panels must not be included in other debt secured by real estate in the CLTV ratio calculation because the documented lease or power purchase agreement status takes priority. • The property must maintain access to an alternate source of electric power that meets community standards. • The lease or power purchase agreement must indicate that: <ul style="list-style-type: none"> ○ Any damage that occurs as a result of installation, malfunction, manufacturing defect, or the removal of the solar panels is the responsibility of the owner of the equipment and the owner must be obligated to repair the damage and return the improvements to their original or prior condition (for example, sound and watertight conditions that are architecturally consistent with the home); ○ The owner of the solar panels agrees not to be named loss payee (or named insured) on the property owner’s property insurance policy covering the residential structure on which the panels are attached. As an alternative to this requirement, the lender may verify that the owner of the solar panels is not a named loss payee (or named insured) on the property owner’s property insurance policy; and ○ In the event of foreclosure, the lender or assignee has the discretion to: <ul style="list-style-type: none"> ▪ Terminate the lease/agreement and require the third-party owner to remove the equipment; ▪ Become, without payment of any transfer or similar fee, the beneficiary of the borrower’s lease/agreement with the third party; or ▪ Enter into a new lease/agreement with the third party, under terms no less favorable than the prior owner
